Bench Services AG will no longer continue the bench 3a-solution

Glarus, July 24, 2025 - Bench Services AG will no longer market the bench 3a-solution launched in March 2024. This decision follows the withdrawal of our partner Leonteq due to a strategic reorientation.

The bench 3a-solution was founded with the goal of modernizing retirement savings in Switzerland and making it accessible to a broad audience. The close partnership with Leonteq and Glarner Kantonalbank formed the foundation for the successful market entry.

Following Leonteq's strategic decision, Bench Services AG has determined that it is no longer feasible to continue offering bench on a sustainable basis. Therefore, bench will not accept any new customers going forward.

Bench Services AG, together with Leonteq and Glarner Kantonalbank, will ensure an orderly wind down of bench. All customers will be informed directly about the next steps in the coming days.

We would like to thank all customers, partners, and supporters for the trust they have placed in us.
